Art Unit: 3662

1. Claims 1-14 and 18-20 are allowable over the prior art of record.
2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 17 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Newly-amended independent claim 17 is indefinite and unclear in that lines 4-5 of claim 17 state that the "three or more sensors" are on "at least one of the casing and the two or more fins," but lines 10-13 of claim 17 definitely claim sensors as being on the fins. That is to say, lines 4-5 of claim 17 are contradicted by lines 10-13 of claim 17 in that lines 4-5 leave open the possibility that all of the sensors are on the "casing" only (i.e., there are no sensors on the fins), but lines 10-13 of claim 17 necessitates that sensors are on the fins.

4. Claim 17 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
